## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments filed 4/30/2009 have been fully considered and are persuasive. The rejections of claims 1, 2, 4, 6-23, 25-32, 34, and 35 under 35 USC 102 and 35 USC 103 have been withdrawn.

Withdrawn claim 24 is rejoined with the allowed claims as parent claim 21 is now in allowable form and is generic to including the species of claim 24 where the monitoring device is capable of remaining stationary.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ryan Strom on 8/13/2009.

The application has been amended as follows:

Claim 23 is cancelled as all of the limitations of claim 23 are included in the last limitation of parent claim 21.

The phrase "adapted to" is changed to read "configured to" in claims 21-22, 27-28, 30, and 35.

### ***Allowable Subject Matter***

Claims 1-2, 4, 6-22, 24-32, and 34-35 are allowed.

The following is an examiner's statement of reasons for allowance:

The closest prior art teaches analyzing the movements of particles in the detection area from detected responses that were obtained from a position spaced apart from the seafloor, but do not disclose detecting both P and S waves resulting from a seismic event in a plurality of overlapping sections that are monitored successively in a detection area.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
